Cuvage S.r.l.

Category: Cantine
business description: Cuvage is the essence of sparkling wines. The expert balance between "Cuvée" and "Perlage," two of the most important processes for sparkling wines. Cuvage is a project that aims to integrate the supply chain with the production of quality aromatic sparkling wines, controlling everything from grape to bottle. This is a factor the company places great importance on, with the aim of reviving one of the most important production facilities in the Acquese area.
The winery was founded with the ambitious goal of recovering and revitalizing the Piedmontese sparkling wine tradition, unfortunately partly forgotten today but with great potential.
Every step is carefully monitored, from grape to bottle, alongside local winemakers. This supply chain project focuses, above all, on quality and relies on a true local joint venture. The Cuvage sparkling wines, all made using the classic method, are a perfect blend of tradition and the future. Three flagship wines: the Brut Rosé, made with 100% Nebbiolo grapes from the Barolo area, aged on the lees for 18 months; the Blanc de Blancs, a pure Chardonnay; and the Cuvage de Cuvage, a Piedmontese reinterpretation of Champagne, where Nebbiolo replaces Pinot Meunier, alongside Pinot Noir and Chardonnay.

Come and discover the Metodo Classico according to Cuvage. Choose the experience that's best for you to discover the wisdom and artistry behind every single bottle of our wine. At the end of each tour, we look forward to welcoming you to our boutique to continue your bubble experience.
