Olivero Daniele Azienda Agricola

Category: Cantine
business description: The farm is located in the municipality of Cassine, in the Alto Monferrato region, where grape growing has ancient origins and remains the predominant activity today, favored by the unique conditions and characteristics of the soil and climate.

Daniele Olivero, with his degree in viticulture and enology, is the embodiment of the new generation of winemakers: educated, well-prepared, but above all, enthusiastic and in love with their land. The Olivero Daniele Farm, with its centuries-old tradition, is located in Cassine, on the splendid hills of the Alto Monferrato Acquese. The vineyards extend across the nearby hills, in a delightful natural setting. With magnificent exposure, they ripen and achieve the highest level of quality, the cornerstone of the entire supply chain, whose processing is still done by hand to preserve the final product.
